Scenarios

A group of friends are hungry, but can't decide on where to go. Maybe...

Scenarios

A group of friends are hungry, but can't decide on where to go. Maybe...

- you're on a tight budget.

Scenarios

A group of friends are hungry, but can't decide on where to go. Maybe...

- you're on a tight budget.
- it's peak dinner hour, and most places can't fit your group of 12.

Scenarios

A group of friends are hungry, but can't decide on where to go. Maybe...

- you're on a tight budget.
- it's peak dinner hour, and most places can't fit your group of 12.
- it's late, and some restaurants are closed.

Scenarios

A group of friends are hungry, but can't decide on where to go. Maybe...

- you're on a tight budget.
- it's peak dinner hour, and most places can't fit your group of 12.
- it's late, and some restaurants are closed.
- you don't want to take three different trains to get sushi.

Scenarios

A group of friends are hungry, but can't decide on where to go. Maybe...

- you're on a tight budget.
- it's peak dinner hour, and most places can't fit your group of 12.
- it's late, and some restaurants are closed.
- you don't want to take three different trains to get sushi.
- you've already had enough sushi this month.

Foodies for simple food recommendations
